Psychology 12: Final ePortfolio Checklist

Congrats! You are almost finished Psychology 12 ☺ Before you call it quits, I would like you to make sure your ePortfolio – **your Psychology 12 legacy** – is the best it can be.

As a way to polish up your eP, I would like you to ensure that you have included and completed the following:

o Each Unit post *(not your reflections)* is introduced with a couple of sentences. This introduction should mention what the assignment is, the purpose, how you completed the assignment and identify your partner in the assignment if you had one.
o Each post, *(Unit and Reflection)* should have a picture/screenshot/icon something visual to represent the artifact.
o Each Unit Page *(1-4)* should have a section at the bottom titled "Questions for Further Investigation". This is where you will list 3 questions you are wondering about, and would have liked to study. These should be big idea questions, not simple content questions that Google could answer. **These questions should be thoughtful, relevant and extend the topics discussed in the unit. You do <u>not</u> have to answer these questions.**
o Each page on your eP should have psychology-related imagery. No stock food or retail photos.
o Make sure there are no random, default pages on your ePortfolio

Here is a list of all of the assignments & reflections that you should have. Please make sure they are posted on the correct page of your ePortfolio.

<u>Home Page</u>:

- Write something to introduce the course, and your ePortfolio. Do not list personal details (name is ok), but describe the purpose of your eP and introduce what can be found on your site.

<u>Unit 1</u>:

- Approaches to Psychology Poster
- Unethical Experiments

<u>Unit 2</u>:

- Cognitive Map
- Learning Lab
- Memory Research Paper
- Motivation in Ads

<u>Unit 3</u>:

- Psychological Testing
- Personality: A Look at You (with word clouds) /Carl Jung's shadow
- Psychoanalysis of a character: Freud in the Media   *(More on back)*

Unit 4:

- Stress & Coping Diary
- Music and Mental Health

Reflections:

- #1 Self-Regulated learning
- #2 The Teenage Brain
- #3 Context-dependent Memory
- #4 Inside Out - optional
- #5 Theories of Intelligence
- #6 14.4 Humanistic & Cognitive Theories
- #7 Sleep & School Start Times
- #8 Resiliency
- #9 Stigma
