Please create a Unit 4 page on your ePortfolio

Intro Weather assignment

Part 1: Create a word cloud with at least 20 weather terms. You could use "Word it out" to create the cloud, and your "snipping tool" to save it as an image. Here is an example of a word cloud *(I'm sure you've seen them before):*

Part 2: Answer the following questions on your eP below your cloud

1a) What does the term "weather" mean

b) What effects the weather?

c) What causes different weather patterns?

2a) What does "direct observation" tell you about the weather?

b) Can you look outside and predict the weather for tomorrow? Why/why not?

3) What causes wind?

4) What is the composition of Earth's air?
